Professional Summary

Results-driven **ICT Applications Development Graduate** with strong expertise in **full-stack development, mobile apps, low-code platforms, and cybersecurity**. Currently advancing skills through an **Advanced Diploma in ICT**. Experienced in delivering scalable solutions using **Java, Kotlin, Python, JavaScript, PHP, C#, ASP.NET, React, Node.js, and Mendix**.

Recognized for improving client efficiency by up to **20%** through tailored applications and for leading security assessments at hackathons. Passionate about **software engineering, cloud computing, DevOps, and AI**, with a strong commitment to continuous learning and teamwork.

Core Skills

Programming & Development: Java, Kotlin, Python, JavaScript, TypeScript, C++, PHP, C#
Web & Mobile: ASP.NET, React.js, Angular, Node.js, Express.js, Flutter, Android SDK, React Native
Databases & APIs: MySQL, Firebase, MongoDB, PostgreSQL, RESTful APIs, Hibernate ORM
Low-Code/No-Code: Mendix (Certified Rapid Developer)
DevOps & Version Control: Git, GitHub
Cybersecurity Tools: Burp Suite, Wireshark
Soft Skills: Problem-solving, Team Collaboration, Leadership, Time Management

Experience

Mendix Application Developer (Freelance) – Remote | *Mar 2024 – Present*
- Built **5+ low-code business applications** in Mendix, boosting operational efficiency for clients by **15–20%**.
- Integrated MySQL and Firebase databases with REST APIs for **real-time synchronization**.
- Delivered 3 major projects **2 weeks ahead of schedule** through strong collaboration and agile practices.

MAISH Hackathon 2025 – Participant
• Collaborated in the 2025 MAISH Hackathon developing innovative digital solutions to real-world problems. • Strengthened teamwork, creative problem-solving, and agile development skills under tight deadlines.

Education

Advanced Diploma in ICT (Applications Development) – University of Mpumalanga | *Expected Dec 2025*
Diploma in ICT (Applications Development) – University of Mpumalanga | *Dec 2024*
National Senior Certificate (Grade 12) – Nngweni Secondary School | *2021*

Projects

- **Responsive Weather App:** Built a responsive weather forecasting app using APIs.
- **Calculator App:** Developed a fully functional calculator application.
- **Greeting App:** Designed a greeting app with user interaction features.
- **Book Tracker GUI App:** Created a book tracking system with GUI interface.
- **To-Do List Website:** Built a task management website for personal productivity.
- **Sales Dashboard:** Implemented a sales analytics dashboard for tracking KPIs.
- **Portfolio Website:** Personal developer portfolio showcasing projects and skills.
- **Egumeni Restaurant Ordering System:** Developed a digital ordering system for UMP's restaurant.
- **Translate Pro:** Kotlin-based translation app designed for UMP students to support multilingual communication.
- **Smart Task Manager (React + Firebase):** Built a web app to manage tasks with real-time cloud sync.
- **Mobile Budget Tracker (Kotlin + SQLite):** Designed an Android app to track expenses, reaching 200+ downloads locally.

- **Mendix Inventory System:** Developed for SMEs, reducing stock management errors by 15%.

Certifications

- Meta – React Native Specialization (Coursera)

- IBM – Cybersecurity Fundamentals

- IBM – Data Science Foundations – Level 1

- Google – Foundations: Data, Data, Everywhere (Coursera)

- Google – Tools of the Trade: Linux and SQL (Coursera)

- Google – Play It Safe: Manage Security Risks

- FreeCodeCamp – Responsive Web Design

- FNB Academy – Full Stack Development Certificate

- Mendix – Rapid Developer Certification

-MAISHHackathon2025–Certificate of Participation
